Dear Parents and Guardians:

The Liberty Elementary School District believes that extra-curricular activities are a very important part of the overall educational process. In order to help offset part of the cost of all extra-curricular programs and to provide these opportunities equitably to all schools, the District has established a participation fee for all extra-curricular programs. This fee will help offset part of the cost of activity trips, the sponsor addenda, uniforms, referees, and other expenses consistent with the extra-curricular programs. Additionally, extra-curricular activities assigned a fee are legally eligible to use Extra-Curricular Tax Credit donations to enhance extra-curricular programs. The proposed fees per student activity for next school year, 2019-2020, are listed below.

- Extracurricular Athletics - \$25.00
- Extracurricular Science Olympiad - \$25.00
- All Other Extracurricular Activities - \$5.00

Additional program costs for things such as event entrance fees, costumes that students are allowed to keep, or special supplies may be charged dependent on the program. Costs charged shall not exceed the actual costs.

In establishing the activity fee, the District does not wish to create any economic hardship for families. Parents or guardians may take advantage of the Extra-Curricular Fees Tax Credit option to help cover this fee. In addition, scholarship opportunities will be available for those unable to pay. Please see your child's activity sponsor or contact your school front office for more details on either option.

Thank you for your support of our students and the Liberty Elementary School District.

Sincerely,

A handwritten signature in cursive script that reads "Lori Shough".

Lori Shough, Ed.D.
Superintendent
